DRAFT

Introduction and Vision-INTRODUCTION AND VISION

~~Formal planning for development of a region began in 2012. By the fall of 2013, our nine-county region began collaborating to change the way we serve individuals with disabilities. Formation of the Mental Health/Disability Services of the East Central Region (ECR) has allowed us to work together to resolve challenges and carry out responsibilities as a team. We have found that together we have the capacity to exceed what could have been accomplished as individual counties. In partnership with our community, we envision a service system which will create an environment to meet all service needs of persons with disabilities.~~

The Mental Health/Disability Services of the East Central Region (ECR) was formed under Iowa Code Chapter 28E to create a mental health and disability service region in compliance with Iowa Code 331.390. ~~Within this region, T~~he ECR will ~~create~~maintain a regional management plan designed to improve health, hope, and successful outcomes for ~~the~~ adults in our region who have mental health and/or intellectual/developmental disabilities, including those with multi-occurring substance use issues, health issues, physical disabilities, brain injuries, and other complex human service needs. In addition, the ECR will incorporate children into our service array as determined through the Iowa Code 331.390 regarding children with a diagnosis of a Serious Emotional Disturbance. Provision for children's services may be provided based on the Regional Governing Board's consideration of the availability and source of funds.

~~In accordance with the principles enumerated in the legislative redesign, the ECR will work in a quality improvement partnership with stakeholders in the region (providers, families, individuals, and partner health and human service systems) to develop a system of care approach that is characterized by the following principles and values:~~

- Welcoming and individual-oriented
- Person and family driven
- Recovery/resiliency-oriented
- Trauma-informed
- Culturally competent
- Multi-occurring capable

~~After six years of collaborative planning and growth, the Region has is ready to moved into the next phase by facilitation of a comprehensive network of services across the lifespan for the citizens of the East Central Region. ***The mission of ECR is to collaboratively strengthen the regional network of quality and accessible supports to meet the needs of adults and children with disabilities.*** In addition, the vision of ECR is to ensure a responsive system that:~~

- Honors the complexity of a region with urban and rural counties
- Adapts to the changing legislative landscape to advocate for stable and predictable funding
- Continues to be forward thinking while ensuring fiscal responsibility
- Demonstrates acceptance and value of all citizens to promote developmentally responsive support and mental wellness

The Regional Governing Board has set the following values:

Service Orientation - Staff of ECR will strive for equitable, inclusive and collaborative opportunities that meet the needs of people supported by ECR while building community and creating public awareness of the region

Proficiency - Staff of ECR will consistently and pro-actively demonstrate a commitment to productivity, team work, innovation, and creativity in order to ensure efficient communication and realistic fiscal responsibility for the region

Caring - Staff of ECR will use sensitivity, compassion and humility to support a family-like atmosphere while being patient, mindful and accepting of people supported by the region

Integrity - Staff of ECR will ethically promote transparency, trustworthiness, accountability, honesty and respect among regional staff and will encourage such with regional partners

In compliance with Iowa Administrative Code (IAC) 441.-25 the Plan includes three parts: Annual Service & Budget Plan, Annual Report, and Policies & Procedures Manual. The Annual Service & Budget Plan includes ~~the services to be provided and the cost of those services, local~~ access points, service coordination & targeted case management agencies, ~~a plan for ensuring effective crisis planning prevention and a description of the scope of services,~~ intensive mental health services designation, children's behavioral health services, scope of services, budget & financing provisions, financial forecasting measures, projection of need and cost to meet the need, and provider reimbursement provisions. The Annual Report provides an analysis of data concerning services managed for the previous fiscal year including a confirmation of services provided, the status of service development, actual numbers of persons children and adults served, documentation that designated access centers, ACT teams, subacute and intensive residential services met service standards, financial statement of actual revenues and expenditures, moneys expended, and outcomes

C. System Management

System of Care Approach Plan IC 331.393(4)h; (IAC 441-25.21(1)h)

The ECR provides leadership and management at the local level for designing a regional system of care for Mental Health and Disability Services. The design of the system is based on the expectation that

individuals and families have multi-occurring issues, and incorporates an organized quality improvement partnership process to achieve the vision defined in this plan.

~~Within this vision, the ECR will work in partnership with providers and other stakeholders to further develop services that are:~~

- ~~• Welcoming and accessible~~
- ~~• Able to emphasize integrated screening, early identification and early intervention~~
- ~~• High quality and, wherever possible, evidence-based~~
- ~~• Organized into a seamless continuum of community-based support~~
- ~~• Individualized to each person with planning that expands the involvement of the individual~~
- ~~• Provided in the least restrictive, appropriate setting~~
- ~~• Designed to empower individuals and families as partners in their own care~~
- ~~• Designed to leverage multiple financing strategies within the region including increased use of Medicaid-funded services and Iowa Health and Wellness Plan~~
- ~~• Supported by provision of training and technical assistance to individuals and families, as well as to providers and other partners.~~

~~Developing an Integrated Multi-Occurring Capable Trauma-Informed System of Care; Addressing Integrated Multi-Occurring Needs; IC 331.393(4) h & m; Implementation of Interagency and Multi-system Collaboration and Care Coordination (IAC 441-25.21(1)n; 441-25.21(1)m)~~

~~An individual with multi-occurring conditions is defined as any person of any age with ANY combination of any MH condition (including trauma) and/or developmental or cognitive disability (including Brain Injury) and/or any Substance Abuse condition, including gambling and nicotine dependence, whether or not they have already been diagnosed. Individuals with multi-occurring conditions commonly also have medical, legal, housing, financial, and parenting issues and other complex needs—~~

~~IAC 441.25.1 “Multi-occurring conditions” means a diagnosis of a severe and persistent mental illness occurring along with one or more of the following: a physical health condition, a substance use disorder, an intellectual or developmental disability, or a brain injury.~~

The ECR shall maintain a service delivery approach that builds partnerships within a quality improvement framework to create a broad, integrated process for meeting multiple needs. This approach is based on the principles of interagency collaboration; individualized, strengths-based practices; cultural competence; community-based services; accountability; and full participation of individuals served at all levels of the system. The ECR shall work to build the infrastructure needed to result in positive outcomes for individuals served.

Formatted: Font: (Default) +Headings (Calibri Light), Not Highlight

Formatted: Not Highlight

Formatted: Not Highlight

~~In order to accomplish this objective, the ECR will utilize and participate in the Comprehensive Continuous Integrated System of Care (CCISC) and engage all of its stakeholder partners, including mental health, disability, and substance abuse providers. The ECR recommends that all providers participate in this initiative and encourages providers to develop multi-occurring capability for each program provided in the region and for all staff.~~

In addition, the ECR shall partner with courts to ensure alternatives to commitment and to coordinate funding for services for individuals under Chapter 229 commitment. The ECR shall collaborate with the Iowa Department of Human Services, Iowa Department of Public Health, Department of Corrections, Iowa Medicaid Enterprise, other regions, other funders, service providers, case management, school systems, AEA's, Integrated Health Homes, individuals, families and advocates to ensure the authorized services and supports are responsive to individuals' needs, consistent with system principles and cost effective.

The ECR shall may create committees ~~that focus on training, communications, finance, policy development, information systems, resource development, service delivery system design, quality improvement, and other committees as indicated~~ to organize the tasks, activities, and functions associated with building, implementing, and sustaining systems of care. ~~The ECR will invite other funders, other regional service systems, service providers, case management, individuals and their families or authorized representative, and advocates to participate in these committees.~~ These committees will ensure that authorized services and supports are responsive to individuals' needs, consistent with system principles and are cost-effective by soliciting input from committee members and others concerned with the service system. ~~All recommendations made by the committees will be reported back to the Governing Board for incorporation in future planning.~~

Formatted: Strikethrough

The ECR shall have ~~an~~ Advisory Committees as described in Section A: Organizational Structure. The Governing Board may establish other committees for various other purposes as deemed necessary for the operation of the Region. Once the need for a committee has been established by the Governing Board, member Counties of the Region will provide nominations for individuals to serve on the committee. Appointments to any established committee of the Region shall be made by action of the Governing Board. All recommendations made by the Advisory Committee will be reported back to the Governing Board for incorporation in future planning. All committee appointees shall serve ~~indefinitely~~ at the discretion pleasure of the Governing Board.

Decentralized Service Provisions (IC 331.393(4)i & IAC 441-25.21(1)i)

The ECR shall strive to provide services in a dispersed manner to meet the minimum access standards of core services by utilizing the strengths and assets of the regional service providers. The following measures will be used to ensure services are accessible in all parts of the region:

- Analyzing the gaps by assessing unmet needs

- Incorporating feedback from community stakeholders
- Identifying costs and exploring alternative funding streams
- Developing or expanding services to meet gaps
- Identifying service providers willing to provide services within the area
- Ensuring core services are available within 30 miles in urban areas or 45 miles in rural areas
- Exploring technological innovations and modalities to meet needs more efficiently

Utilization and Access to Services (IC 331.393(4)d; IAC 441-25.21(1)d)

Within the broad system approach outlined above, the ECR will oversee access and utilization to services as well as population-based outcomes for the MHDS involved population in the region, in order to continuously improve system design and better meet the needs of people with complex challenges. In order to accomplish this, the ECR will integrate planning, administration, financing, and service delivery using utilization reports from both the region and the state including the following:

- inventory of available services and providers
- utilization data on the services

Results will be analyzed to determine if there are gaps in services or if barriers exist due to:

- service offered
- adequate provider network
- restrictions on eligibility
- restrictions on availability
- location

The region will assist all organizations to become high quality first-class providers. See 28E Agreement on ECR or Secretary of State website for specific financial and fund balance information.

Accounting System and Financial Reporting

The accounting system and financial reporting to the department conforms to Iowa Code 441- 25.13 (2) (331.391) and includes all non-Medicaid mental health and disability expenditures funded by the Region. Information is separated and identified in the most recent Uniform Chart of Accounts approved by the State County Finance Committee including, but not limited to, the following: expenses for administration; purchase of services; and enterprise costs for which the region may be a service provider or is directly billing and collecting payments.

Contracting/Provider Agreements

Based on contracting criteria, the ECR will contract with MHDS providers whose base of operation is in the region to meet the service needs of the population. The region may also honor contracts that other regions have negotiated with their local providers. The ECR may also choose to contract with providers outside of the region. A contract may not be required with providers that provide one-time or as needed services.

The ECR will examine ways to develop financial incentives for obtaining high performance individual outcomes and cost effectiveness. The region may utilize vouchers and other non-traditional means to fund services.

Funding

Funding shall be provided for appropriate, flexible, cost-effective community services and supports to meet individual needs in the least restrictive environment possible. The region will pursue or consider move toward outcomes-based or value-based funding as the system continues to evolve, including working collaboratively with the Managed Care Organizations, i.e. MCO's. The ECR recognizes the importance of individualized planning for services and supports to empower all individuals to reach their fullest potential.

An individual who is eligible for other funding must apply for and accept such funding and support. Failure to do so shall render the individual ineligible for regional funds for services that would have been covered under funding, unless the region is mandated by state or federal law to pay for said services.

Individuals who are in immediate need and are awaiting approval and receipt of assistance under other programs may be considered eligible if all other criteria are met.

The ECR shall be responsible for funding only those services and supports that are authorized in accordance with the process described in the MHDS Plan, within the constraints of budgeted dollars. The ECR shall be the funder of last resort and regional funds shall not replace other funding that is available.

K. Waiting List Criteria (IAC 441-25.21(1)r)

The ECR requires each individual's interdisciplinary team to continuously and actively utilize the following strategies to prevent the need to implement a waiting list or shorten the length of time on a waiting list:

1. Seek ways to move individuals to the least restrictive environments.
2. Assist individuals to utilize or learn to utilize natural supports whenever possible.
3. Determine that services reflect the individual's needs based on assessment.
4. Ensure that individuals access and accept all other funding sources for which they qualify prior to accessing ECR funding.

The ECR will only implement a waiting list if the property tax levy in each county is at the maximum amount and all dollars available to the region have been fully encumbered. The ECR may implement a waiting list if encumbered expenses for a given fiscal year exceed regional MHDS funds available. Core Services to core populations will be a priority. Additional Core Services will be the next priority. Additional populations served will be the next priority and other services determined to be necessary for the well-being of individuals living in the region will be the final priority.

If a waiting list is implemented, individuals placed on the waiting list will be notified and provided the estimated length of time before funding will be available. When funding becomes available, the ECR will determine the services and individuals approved for funding in accordance with the date placed on the waiting list and on emergency need.

The waiting list applies to all new recipients, individuals requesting an increase in services or additional services, and may include renewal of identified services as they come up for reauthorization. Exceptions may be granted based on vital need and/or safety or when mandated by Iowa Code. The waiting list shall be centrally maintained by the CEO or their designee.

Formatted: Font: (Default) Times New Roman

Any waiting list that may exist shall be reviewed annually when planning for future budgeting needs and future development of services. Data from any implemented waiting list will be compiled and used in any future planning.
